Position purpose

The Senior Consultant Finance will provide authoritative insight around the complexities of how financiers price risk and make decisions regarding the provision of finance to capital-intensive and climate mitigation projects. Operating globally, the role will contribute to thought leadership, advocacy and commercial outputs to enable a more sophisticated analysis of barriers and opportunities for CCS finance.

Key responsibilities

- Deliver consultancy services to clients, at the agreed utilisation rate, contributing to overall revenue targets
- Provide market-valued, authoritative insights and analysis to Members and clients by maintaining and using deep knowledge of CCS technology, markets, trends, industry practices, regional, global and subject matter developments
- Produce, edit and publish materials about CCS issues, conveying information appropriately for intended audience and medium
- Deliver high-quality work products to meet and exceed expected timeframes, budget (costs and margins) and Member and client satisfaction
- Contribute to growth of the Institute's commercial business by contributing to the development of proposals for fee for service work and participating in business planning activities
- Maintain and comply with commercial related system process and procedure requirements, such as accurate and timely data input
- Provide expertise and support for advocacy activities, including thought leadership outputs
- Other duties as required

Skills and experience

Essential

- Detailed understanding of potential value drivers such as C markets, ESG factors and taxonomies providing a granular understanding of how to bring finance to CCS projects

- Advanced knowledge of the theory and application of climate policy, especially with respect to its impact upon financing climate mitigation projects
- Experience working for a financial institution considering the provision of finance to capital intensive projects
- Accomplished technical writing and presentation skills
- Relevant tertiary qualification

Desirable

- Demonstrable commercial and financial acumen within climate mitigation projects
- Experience working for a finance institution, an MDB or on the project side considering the provision of finance to climate projects
- Experience working in a global organisation with a matrix structure
